There are few, if any, forms of entertainment that bring as much joy and happiness to children (and grown-ups, alike) as does the medium of Cartoons, and throughout the years, one of the leading and most enjoyable has been the Terrytoons group of cartoon stories and characters. It would indeed be difficult to find a child, man or woman who has not, at one time or another, laughed and delighted to the adventures of Dinky Duck, Farmer Al Falfa, The Terry Bears, Heckle and Jeckle, Roquefort the Mouse, or Gandy Goose and Sourpuss . . . all of whom are heard "in person" in this fun-packed album.

Daily, via television, theaters and books, millions of youngsters throughout the world are entertained by the Terrytoons family of cartoon characters, and in this album, through stories and music, has been captured the fun, excitement, thrills and adventure that children have come to expect whenever they see a Terrytoons cartoon.

This is the kind of record album that the youngsters will love to have in their collection because it gives them a chance to use their imagination while listening, and thereby makes them part of the "action." Also, a "word of advice" to the children: Better hide this album from Mom and Dad, because they'll be wanting to listen to it as often as you will!
